**Additional Information:** DZP is one of only a handful of law firms in Poland having a specialist Data Privacy Team. Our Data Privacy Team experts have extensive experience gained over the 20 years since personal data protection rules were introduced in Poland in 1997. The team head, Dr Bartosz Marcinkowski, also deals with data protection topics academically and has gained a doctorate in the field - he wrote a book on the EU-US data protection challenges. Our lawyers closely monitor legislation and develop data protection practices in Poland, the European Union, and non-EU countries. They have also participated in creating best data protection practices (e.g. codes for the medical, automotive and financial sectors) and taken part in the public debate over personal data protection in Poland. DZP's Data Privacy Team is one of the first in Poland to offer advice on the implementation of the EU General Data Protection Regulation (GDPR).

**Additional Information:** Wiley operates at the intersection of politics, law, government, business, and technological innovation, representing a wide range of clients—from Fortune 500 corporations to trade associations to individuals—in virtually all industries. Wiley is a dominant presence in Washington, DC, with more than 260 attorneys and public policy advisors. Our firm has earned international prominence by representing clients in complex, high-stakes regulatory, litigation, and transactional matters. Many of the firm’s attorneys have held high-level positions in the White House, on Capitol Hill, and in federal agencies including the U.S. Department of Defense, the U.S. Patent and Trademark Office, the Federal Communications Commission, the U.S. Department of State, the U.S. Department of Commerce, the U.S. International Trade Commission, the U.S. Environmental Protection Agency, the Federal Election Commission, and the U.S. Department of Justice. Many of our attorneys also have active high-level security clearances that allow them to quickly “read in” to matters when there is a need to access classified materials. The Legal Times has noted that the firm “represents as perfect a merging of public policy and corporate America as exists in Washington.”
